

# SCALES

## OHAUS TRIPLE BEAMS

- Model 720**    \$ 285.00    Price includes a plastic scoop, which rests in a four-point claw. The weight of the scoop is built into the calibration of the scale. 2610 gram capacity\*
- Model 750**    \$ 168.00    The least expensive of the series. Requires the operator to weigh the container and subtract it from gross weight of sample. 2610 gram capacity\*
- Model 760**    \$ 250.00    This model includes a fourth tare beam allowing you to compensate for the weight of any container up to 180 grams in weight. This minimizes the risk of human error in determining the weight of your material. 2610 grams\*

Replacement beam weights:	1 gm.	\$ 5.00	Scoops:	Stainless steel	\$ 126.00
	10 gm.	\$ 8.65		High Density Poly	\$ 22.00
	100 gm.	\$ 13.15		Maxi: 10" x 2.5"	\$ 24.00
Vinyl cover for triple beam scales:		\$ 15.00			

\*2610 gram capacity is based upon the 610 gram capacity of the basic scale and the use of additional counter-weights. All models except 720 feature a six inch stainless steel platform.

<b>#701</b>	<b>500 gm. wt.</b>	<b>\$17.50</b>	<b>#707 Weight Set</b>	<b>\$75.00</b>
<b>#702</b>	<b>1000 gm. wt.</b>	<b>\$25.60</b>	contains 2 ea. 1000 gm. and 1 ea. 500 gm. Weights	

**Model CS5000** \$ 165.00    Compact, low profile digital scale. Weighs in grams or lbs./oz.    5000 gram/11 lbs. capacity. Reads in 2 gram/0.1 oz. increments. Requires 3-AA alkaline batteries or optional AC adapter.

**Model CS200** \$ 140.00    Compact, low profile digital scale. Weighs in grams or oz.    200 gram / 7.5 oz. capacity. Reads in 0.1 gram/0.01 oz. increments. Requires 3-AA alkaline batteries or optional AC adapter.  
**AC Adapter**    \$ 25.00

## SPRING DIAL SCALES

**Model 2502:**    Features 5 3/4" x 7 7/8" chrome plated platform. Total capacity is 25# and is calibrated in 2oz. increments. Large 6" dial for easy reading, temperature compensated springs, Plexiglas dial cover and many other attractive features. **\$110.00**

**Model 5002:**    With a 9" by 9" stainless steel platform, this model will accommodate a full 50# and again is calibrated in 2 oz. increments. All internal parts are precision machined and both models have dual spring lever mechanism for accuracy. Model 5002 has an 8" dial with Plexiglas cover and aluminum bezel. Should you damage either scale, parts are readily available and easily installed. **\$120.00**

**Model 10004:**    13" x 13" chrome plated platform. Total capacity of 100# in four ounce increments. **\$249.00**
