

MKM Pottery Tools

Throwing Tools

Benefits:

- 1) Low friction rib heads. Won't torque walls.
- 2) Different sizes and shapes for different forms.
- 2) Forms the wall as desired through a very narrow opening.
- 3) Rib heads are interchangeable and replaceable.
- 4) Made to last a lifetime.

Description of the product:

All the MKM Throwing Tools™ are handmade from beautiful hardwood and finished to resist water for a lifetime.

Each rib head is made from the same wood, and is attached to the handle using a stainless screw, two washers, and a metal insert in the handle.

The rib heads can be interchanged with other MKM Ribs, or rotated and then retightened.

These tools are made to last a lifetime and to be of the very highest quality.

Using the shoulder tool.

Using T3C.

The tall jar tool.

Optional rib attachments.

Coco Ribs™

7 different beautifully curved **CocoRibs™** in one package. Each rib is a different size or shape. All are made from a renewable resource - coconut shells. Great for hand building and throwing. The shapes are all ergonomic, fun to use and work incredibly well. Coconut shells are very tough to begin with, but the ribs are finished with mineral oil for extra durability.

\$16.95 per package
