

NON-FIRED CLAYS

No Kiln Required

PermoPlast

Since 1919, PermoPlast® has remained the standard for premium, non-hardening modeling clays. Ideal for students at all grade levels. Develop small motor skills and hand-eye coordination with our classic non-toxic, non-hardening clay. Students and claymation filmmakers like Art Clokey created original characters (Gumby and Pokey) for mixed media art projects with our PermoPlast clay. Available in 9 colors that blend easily: Blue, Brown, Cream, Gray, Green, Orange, Red, Terra Cotta, or Yellow. Can be reused when stored airtight.

1# - \$6.15

5# - \$21.90

DARWI

Darwi is the ideal modeling compound. It is white, odorless, non-toxic and air drying. After drying for 24 hours or more you can carve, sand, and paint Darwi. Clean up is simple. For hands, brushes etc, just wash up with water. When dried, Darwi can be vacuumed from clothing, carpeting or any work area.

\$ 14.49 per kilo (2.2# pkg)
